DIY Ancestry Workshop - \$59 Create, Research, and Document Your Family Tree

The DIY Ancestry Workshop is offered for individuals or family groups interested in learning how to create and build a family tree. Online sessions are held via Zoom over a consecutive 2-week time period and are scheduled with flexibility. Participants must have access to a computer or tablet for conducting genealogical research and will be required to sign up for a trial membership with Ancestry.com.* Free 14-day trial or paid memberships are available. Independent data entry and research between lessons is encouraged and will optimize class benefits.

Included:

- Three 1.5-hour genealogy sessions during the 2-week workshop
- Ongoing genealogical consultation services (up to 5 hours) for one year
- An online family tree that can continue to be added to with more individual work
- Resources and copies of all lesson graphics

**Ancestry.com requires a credit card to create an account. Upon completion of the 14-day free trial membership participants may continue with limited access on a free guest account or can choose to continue researching their family tree via a paid membership.*
